

# TECHNICAL DATA SHEET

## HARTDUR RE101 (RE)

### Description

HARTDUR RE101 (RE) is a universal curing agent (cross-linker) for adhesives based on hydroxyl polyurethane, natural, and synthetic rubbers, especially for bonding rubber materials. It is also widely used for bonding metals with rubber. Furthermore, HARTDUR RE101 can be applied to resin, antioxidants, plasticizers, etc.

### Physical Properties

Appearance	: Yellow-green or red-brown to dark violet liquid
CAS No.	: 2422-91-5
NCO Content (%)	: $9.3 \pm 0.2$
Viscosity (cps, @20°C)	: approx. 10 sec flow time
Flash Point (°C)	: -4
Solid Content (%)	: $27.00 \pm 1.0$
Solvent	: Ethyl acetate

### Package

0.75 kg/bottle (20 bottles/carton) & 40 kgs/metal drum

### Shelf Life

6 months since production date.

### Storage

Keep dry and store at 5 ~ 32°C
